LeasePilot

Why did Lewis adopt LeasePilot?

We wanted to streamline updating our lease template and spend less time scrambling for certain legal language. LeasePilot provided a central stop where we could grab all the language we liked for each one of our tenants.

What's the top benefit you've seen so far?

LeasePilot has increased our turnaround time and provided consistency throughout leases.

It has also allowed us to combine all of our documents into one complete set which has created more efficiency. I am no longer pulling outdated versions of leases or using the wrong documents.

What has surprised you about LeasePilot?

We were surprised how user friendly it turned out to be. The continued updates and advancements have made it even easier to use.

Would you recommend LeasePilot to your peers?

Absolutely, mainly because it is user friendly and efficient is everything we hoped it to be, and then some.
